

# DISTINGUISH YOUR PROPERTY WITH MOBILE

Give residents, employees and guests a comprehensive app solution with single-source access to property amenities

## YOUR MOBILE SOLUTION

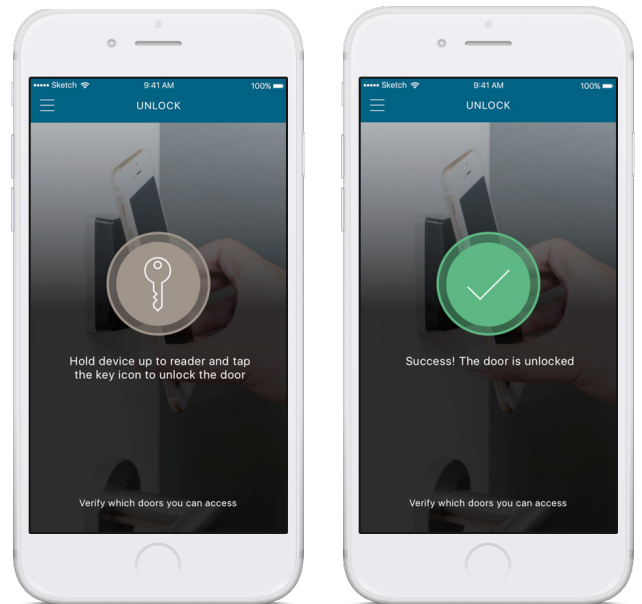

Phunware's brandable mobile solution uses cutting-edge technology to create a premium resident, guest and visitor experience. Whether you're managing residential or commercial properties, mixed-use developments or student housing, make every service your property offers immediately accessible through your branded mobile app.

- Indoor wayfinding
- Marketing automation
- Alerts and notifications
- Directories
- Smart lock management
- Work order management
- Package management
- Visitor list management
- Property event calendar
- App content management
- Analytics

## SMART LOCK INTEGRATION

SALTO's real-time wireless access control systems eliminate the need for wires or mechanical keys. SALTO locks integrate with Phunware's brandable mobile app for residential properties to allow users to manage door access through their smartphones. With the integration:

- Residents can use a Phunware-powered app to conveniently and securely unlock doors
- Residents can share door access with their guests (and restrict it)
- Residents can unlock any online door remotely and allow access to guests even when they are away from home
- Staff and management can easily create, manage and restrict door access through the staff dashboard portal
