

# HOSPITALITY MOBILE SOLUTION

Create an unforgettable experience for guests with one mobile application. Welcome visitors with style and efficiency, and give them the power to personalize their stay in your hotel and city.

## MAPPING, NAVIGATION AND WAYFINDING

Route guests to points of interest in and around your hotel. Provide easy indoor navigation to and from the lobby, guest rooms, dining areas and more. Guide guests outdoors and around the city to sightseeing favorites, restaurants, retail centers and more.

Make updates easily in Phunware's web-based map editor portal to edit points of interest (POI), construction-related closures, accessibility routes and other property changes.

## ANALYTICS

Connect the dots between guests, locations, devices, promotions and more. Use data to develop better insight into app user behavior and engagement that can help you optimize signage, communications and hotel operations.

## MOBILE PLATFORM SUPPORT

Apple iPhone:  
iOS 9.X and above,  
iPad compatible

Google Android:  
Android 4.4 and above  
with Google Services

## MARKETING AUTOMATION

Create, schedule and optimize custom campaigns to drive visits and revenue across your portfolio of properties and nearby retail partners.

Send proximity-related messages or promotions triggered by actions, like delivering a special discount to guests crossing a geo-fence near your on-site spa.

Broadcast messages to your entire app install base or target individual users with personalized messages.

## INTEGRATIONS

Phunware integrates with many business systems so your app can provide a seamless experience to guests that manages all property services in one application. Broaden your mobile offering through integrations with:

- Mobile check-ins
- Food and beverage ordering
- In-room entertainment and temperature control
- Virtual TV remote control
- Concierge communication
- Loyalty and rewards tracking

## CONTENT MANAGEMENT

Manage your app content with Phunware's simple web-based portal to make quick changes without having to re-submit your app to the App Store or Google Play.

## AUDIENCE BUILDING AND ENGAGEMENT

Once your hotel mobile application is built, spread the word to spur adoption and usage.

- **Audience Building:** Get more users and downloads for your app.
- **Audience Engagement:** Leverage Phunware's proprietary data and high-impact creative to promote your brand and increase booking.
